

# INVERCARGILL CITY COUNCIL

## Electing 12 City Councillors

---

### **Darren LUDLOW**

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

I have been privileged to serve five terms on the Invercargill City Council, the last four and a half years as Deputy Mayor. I've chaired the Regulatory Services Committee and our District Plan review. I believe everyone is entitled to a fair process and deserves to be heard. Sometimes leadership is about making the right decision rather than the popular one. I don't fear change, as long as it is reasoned. I support democracy - and therefore all decisions reached by Council, as long as all angles have been discussed. I understand governance and the difference between that role and management. I think the SoRD's project offers a great opportunity for the south. We must measure off the recommendations against Council's infrastructural and Long Term Plan obligations. I'm a family man - married to Lyndal. We have two sons - Wilson and Hugo. Together we are committed to positive, constructive leadership for Invercargill.
