

INVERCARGILL CITY COUNCIL

Electing 12 City Councillors

Dave KENNEDY

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

I enjoy working with energetic people doing positive things for Invercargill.

My wife Vicky is a doctor and works in Bluff. We live in Invercargill and have two adult children.

I attended Konini Primary School in Bluff and Kingswell High School. For many years I have been active in education and the Green Party, both locally and nationally.

I am currently the chair of the Invercargill Public Art Gallery and we have been working to establish a community focussed art gallery in the inner city and amalgamate local art collections.

As co-chair of the Southern Farmers Market I have been promoting the establishment of the central city market place that would have multiple uses.

I would encourage our community to work with our Council staff and Councillors to create a city that is friendly for all ages and backgrounds and make it safe for pedestrians and cyclists.
