

INVERCARGILL CITY COUNCIL

Electing 12 City Councillors

Ian POTTINGER

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

I am a local business owner and a current City Councillor. From this experience I have gained a clear perspective of where Council is succeeding and where it is failing.

Our core infrastructural assets are in good shape and have well structured management plans for the future, but our future will only exist if we can encourage investment in our district. Instead of red tape, there should be red carpet. Investment creates jobs and jobs support families.

The Council itself also needs to provide stronger governance and not be content with the tail wagging the dog. We have Council Controlled Organisations that act more like Organisations that Control Council. I believe major issues need to be decided on with logic and reason based on good information, not with a rubber stamp.

The ratepayers of Invercargill deserve good governance and leadership, which I can bring to Council.

Vote Pottinger.
