

# INVERCARGILL CITY COUNCIL

## Electing 12 City Councillors

---

---

### **Kylie FOWLER**

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

We need to change the culture at Invercargill City Council.

We need to open debate on issues. My goal is to make information more accessible.

Council should provide the environment for the community to grow. It is not Council's role to build commercial properties or compete with local businesses.

We need to change the culture.

I do not support elected members being appointed to Council Controlled Organisations.

If elected, I come to the table with very few conflicts and would be there to serve residents.

I have had an active interest and become informed about local government issues for over five years through attending meetings, blogging and submitting on issues.

We need to change the culture.

Kylie Fowler. Ready. Willing. Able.
