

INVERCARGILL CITY COUNCIL

Electing 12 City Councillors

Lindsay ABBOTT

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

ABBOTT for Council - Puts electors first and self last, commits to passionate representation of everyone's interests, concerns, differing points of view and supports best options for the most

without fear or favour to anyone.

Will continue to oppose practices of decision making behind closed doors and advocate open debate so electors can be informed.

Will continue to vote against unnecessary expenditure - overseas trip's (has never been) unjustifiable expenditure and speculative events.

Preservation of your assets - Water, Transport etc. must be owned by ratepayers and not dictated by government with huge increased potential costs to you with no right of appeal.

Join me in the fight against Government legislation that will increase your costs.

Will continue asking tough questions, scrutinise answers and vote in your interests without fear bias or compromise.
