

# INVERCARGILL CITY COUNCIL

## Electing 12 City Councillors

---

### **Lindsay DOW**

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

Some people are born in Invercargill, some move here with families for employment, while others are sent here.

I am in the latter group, being sent here by my Police employer in 1968 - because I was single.

I still choose to live in Invercargill because I believe in the city. I believe Invercargill has a strong future and I support the SoRD's efforts being done to create the opportunities for development and growth for our city.

Councillors have a 3-year contract to lead our community in ensuring a safe environment in which to live, work and play.

I have been a 2-term City Councillor and understand the processes of local government and governance of our assets.

I make no promises apart from the fact that I will serve the Invercargill community to the best of my ability, as I have done for the past 48 years.
