

INVERCARGILL CITY COUNCIL

Electing 12 City Councillors

Lloyd ESLER

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

I have had two interesting terms on Council and I'm looking forward to a third. I am a grassroots person, passionate about maintaining our great natural environment, positive community activities and developing our city as a wonderful place to live. As a teacher and historian and the author of a number of books on Southland, I know where we have come from and I know where I would like us to go. I am very optimistic about the future of Invercargill as a thriving centre for tourism, heritage, industry, learning and recreation.
