

INVERCARGILL CITY COUNCIL

Electing 12 City Councillors

Rodney TRIBE

My principal place of residence is in the INVERCARGILL CITY COUNCIL area.

I'm proud to be a 3rd generation 'local' to the area.

My decision to stand for Council was not taken lightly and was driven by my desire to see better information being provided to not only the elected officials of Invercargill but to the public in general. Without good information it is near on impossible to engage with the community in any meaningful way or make informed decisions. My intentions if elected to office are fairly simple, I want to see a greater level of community engagement when going out for consultation, this includes providing the community with robust and solid information for them to be able to give their views on matters of importance. I would also like to see reviews undertaken of the efficiency of the Council, and also a full review of the governance structure of Council companies.
