6. Exemption details

All fields in this section must be completed (or separate quality assurance documents covering all aspects provided with the application) otherwise your application will be not accepted.

This should consider the complexity of the work, the risks and consequences of it not complying, and any quality assurance that can be offered. Refer to MBIE for further guidance, and in particular the guidance examples on how to complete this application.

Detailed description of work

Describe the proposed work in detail; specify work not to be covered by exemption; for earthquake repairs, specify damage to the building.

Grounds for exemption

There are two grounds on which the Council can decide to exempt building work from requiring building consents.

Please nominate which of these that you believe applies to this project (both options may be selected if necessary).

(a) The completed work is likely to comply with the Building Code if it is carried out in accordance with your proposal.

OR

(b) If the completed work were not to comply with the Building Code, it would unlikely endanger any people or building provided it is carried out in accordance with your proposal.

Means of compliance

Specify the standards, acceptable solutions, or MBIE guidance documents that may apply.

Design responsibilities

- *Who is carrying out the design work?*
- *What qualifications and proven record of compliance do they have in carrying out work of this complexity?*

Notes:

- Comprehensive details of all designers and consultants involved in the project along with relevant experience in similar works must be provided.

Construction responsibilities

- *Who is carrying out the building work?*
- *What qualifications and proven record of compliance do they have in carrying out work of this complexity?*

Notes:

- Comprehensive details of all contractors involved in the project along with relevant experience in similar works must be provided.

Quality assurance

- *Outline everything you are offering to satisfy council that the requirements of Schedule 1, 2(a) and/or (b) of the Building Act 2004 will be met.*

Notes:

- Summarise the QA system to be used to ensure compliance e.g. inspection schedules and completion documents. Document can be attached.

7. Supporting documents

Include all relevant drawings (plan, elevations, typical sections), supporting documents, specifications, photos, and critical member sizes and critical construction details, if any.

If an engineer is involved, provide the engineer's calculations and sketches, including a producer statement - design.

8. Declaration

[To be completed and signed by applicant or agent]

I/we understand that the fee charged at lodgement is a fixed fee for the Council to assess this application. This will be paid before the decision is released. The fee is payable whether the application is approved or declined.

If the application is not accepted for processing an administration fee may still be charged.

Where an invoiced amount has not been paid by the stated due date, the Council may commence debt recovery action. The Council reserves the right to charge interest, payable from the date the debt became due, and recover costs incurred in pursuing recovery of the debt.

All of the above information is, to the best of my knowledge, true and correct. I understand that all plans, documentation and reports submitted as part of an application are required to be kept available for public record, therefore the public (including business organisations and other units of the Council) may view this application, once submitted.

I/we understand that no work covered by this application is to commence until the building consent exemption decision is approved.
