Chorus worked with the Invercargill City Council to establish its cabinet art programme in the city. The project's aim was to use the frequently overlooked space of the cabinets as a platform for artistic expression. The Invercargill Chorus Cabinet Trail includes creative works by local artists completed in 2014 and 2015. This is an excellent opportunity to get together with friends and/or family and take advantage of Invercargill's bike and walk friendly landscape and enjoy exploring and discussing the wide range of ideas represented.
