

Community Outcomes

Most of what Council does is based on the Community Outcomes that are central to the health and heart of the City. The Community Outcomes are best described as long term goals or aspirations of Council for the Community. The Community Outcomes have been derived from Council's vision: "To enhance our City and preserve its character while embracing innovation and change".

Council has identified three Community Outcomes and these outcomes guide and inform decision making and provide a set of objectives or goals for Council to work towards. As such, each of Council's activities contribute towards the achievement of at least one of the Community Outcomes.

All figures are GST exclusive unless otherwise stated.

Monitoring of Community Outcomes

It is important that the Community can see what progress is being made towards the realisation of these Community Outcomes.

Depending on your perspective and circumstances, all, or some of the three Community Outcomes, may have been substantially realised, or we may have a long way to go. Each outcome has a list of ways in which we will know success and progress towards these will be monitored to ensure we are moving in the right direction.

The information needed to monitor progress towards these outcomes comes from many official sources.

Both Local Government and Central Government sources will be utilised. Effective monitoring provides Council and the Community with good information for decision making.

The following tables display the three Community Outcomes and how we will determine success in achieving the outcomes.
