Now we need to action	Please no slippery tiled areas, outside areas need to be non-slip	Does the medical centre have support services eg. Physio, dentist, pharmacy plunket rooms attached or near by? L. McDonald	Yes	Bringing a more modern look to invercargills CBD	I would like some of the old parts of the buildings salvaged and put into a museum etc, The lions above quest e.g	That some of the shops wont fill up and if rent is too high and looking empty like the arcade is now

	Yes	Open air space in the centre of the mall. Mall building is better looking than I had feared.	ICC need to keep empty shops tidy, windows etc, keep road verges cleared and overall tidy up the remaining buildings in the city	The block could be very claustrophobic, may need to make esk street a no vehicle street. Kelvin Hotel needs to be given a better main entrance and drop off area.	Fear of the remainder of the city being left to run down. Does not all match, brand new and old
I. Brown	No	Safety Accurate Quality	Lights and Rainbows	Doing a great again Mahi	Kiora INV Waihopai

M. Collinson	Yes	Finally having a CBD to be proud of, and the possibility of bringing new life into Invercargill	A place to keep unacompanied rowdy minors away from the general public.	My concern is of people standing in the way of this development.	You are able to turn the north side of esk into a new centre for inveracrgill night life
William	Yes	Mall	Inside playground	No	No
G. Frederick	Yes	Beautiful Invercargill and more areas for emerging art	Long term beauty, looking back to history architecture of invercargill that has been lost from the 1900's	That it will look dated in a few years	Support of local art, film and animation will be awesome
R. Stannard	Yes	New things happening In the Giggle	Music venue and art spaces	Genericfied, dull un-imaginable developemnts. No more zoo-keepers as it is

D. May	Yes	An up-to-date shopping precinct that is an enjoyable place to be	Ample toilet facilities. Good food choice, good disability access. Medical centre that is fit for purpose. Save as much heritage a possible	That it will be destroyed by those who seem to be stuck in the past	Keep it simple and functional - think of our aging population don't be afraid of making pedestrian only areas. Cars do not belong in the city centre where the shoppers are
T. Barrett	Yes	A new fresh clean cut look to our great city	A central arts centre for the entertainment industry, live shows, music gigs with bars that are affordable	The time it will take to finish - what will locals use/get upto while the CBD is under development	
D. Philpot	Not Sure	If you want to give more job opportunity, do not jusge people on background or police records		Our population is not big enough, our rates increase	How do you plan to draw people to the city and to get tourists into town to stay
A. Tupetoa	Yes	More job opportunities	Kmart, Target,Big W, Boost Juice, Footlocker, Kids Play Area and plenty of parking spaces.		More plans, fauna, flora and big windows
G. Stewart	Yes	Starting soonest, bring it on!	No	No	None
N. Kupa	Yes	Good food, more things to do for children	More central things	\$\$\$	
Kirsten	Yes	A lively City which isnt dead by 5pm	An area where you can hold events like christmas markets (Protected from elements)	Looks like it was in the 80's - needs more input from the younger generation who will be left with it. Ideas from outside Invercargill. The old facades have character that the new design lacks.	
L. Kees	Yes	A considered central city that is attractive enough to bring life back to the city	Dedicated precincts and weather proof outdoor areas - similar to eat street in rotorua	The proposed design (Exterior) looks dated and cheap. It will not stand the length of time. The design doesn't have identity. It seems generic	Public Art, Festival/market area with shelter. Currently there is either inside or outside spaces
D. Jenkinson-Walker	Yes	Im mostly looking forward to an inside mall and the vibe a busy place brings (Atmosphere) and hopefully working there.	Pagani and Boost Juice ( I work at pagani and want to keep the job)	All looks good	All looks good
S. Dunick	Yes	Keeping the Facades, city development, carparking	Maori Art, A Wendys	We can barely keep the businesses we have open - how are we gunna sustain a mall?	Where are we going to shop during the development?

Creates own invitation for change and bringing more business and potentially more exciting living for younger southlanders who are returning from other cities	Nice bars and eateries. Arts and dance, spaces for conferences and public/private engagements	That new shop spaces wont be filled	
J. Geary	Yes	It looks innovative, modern, functional yet respects key historical elements.	Fantastci cant wait to experience the actual.		
C. Marshall	Yes	An area open to meet with friends over lunch etc. way more modern.	Pop up spaces open to everyone easy to access so it adds to the area	The traffic delays while buidling. Medic area taking away from the flow of the design.	More green areas, indoor outdoor flow and seasonal, Great Work!
D. McIntosh	Yes	A centralised point in the city for both entertainment and retail. Currently there is no main centre point	Ensure a good mix of retail stores and entertainment experiences	That not all the space can be filled and that well just get an empty building.	How many companies do you expect to fill this - how many have already expressed an interest?
Anastacia C	No	Getting rid of ugly buildings	Shoe shops	It'll Take ages	Nah
G. Munro	Yes	All of it!!	Protection from prevailing westerly	ICC Creating road blocks - let HWR project manage
