

I have put my nomination for the ILT forward as I know that I have the governance skills to fill a void in this by-election. The ILT is to be applauded for the new hotel build and now I would like to see them concentrate on supporting our communities by making our local taverns more of community places for families and elderly to enjoy time at. Communities are important, as was proved with Covid, so making our taverns family focused is one way of connecting them. Support around our smaller groups as well, like scout groups, chess clubs, dance groups and other organizations, that support young people with the enjoyment and socialization which is so important to their quality of life. The people of this city are the owners of the ILT, if elected I will be part of a team responsible for making your voice heard. Vote Lindsay Thomas.
