

# Invercargill City Council

## Electing 12 City Councillors

---

### **Tom CAMPBELL**

LETS GO Invercargill

My principal place of residence is in the Invercargill City Council area.

Best known locally as a former GM of Tiwai, and more recently as leader of SoRDS, Tom has held many governance positions including as Chair of Electricity Invercargill, and as a Director of

PowerNet, and Venture Southland.

At national level Tom has been Chair of NZ's Energy Efficiency and Conservation Authority (EECA) and Chair of NZ's natural hazards institute (GNS Science).

He has also served on governance boards in the fields of disability services, education and crime prevention.

In all those roles Tom earned a no nonsense reputation for building teams, and for getting things done.

Our founders built a splendid City with public amenities we all enjoyed, but some of the best have been closed. As citizens we have the right to be impatient and demand more urgency from ICC to restore those.

I'm standing to restore pride and confidence and urgency in Council.

Let's go Invercargill!
