

Invercargill City Council

Electing 12 City Councillors

Trish BOYLE

Commonsense Community Commitment

My principal place of residence is in the Invercargill City Council area.

I've been a community leader for many years, as Chair of Community Trust South, Rotary District Governor, Chair of Rotary International's Leadership Committee, and Principal of St John's

Girls'.

My strength is in leadership and training, which our city needs now: a diverse council of leaders who understand the effectiveness of good governance and who act collaboratively to enhance the future of our community.

Over fifty years working in the education sector: empowering, appraising, mentoring teachers across the region, as well as teaching our young people, has shown me the importance of listening, collaborating and working to deliver the best outcome.

I was born here and have a large whānau connected across Southland. I'm lucky to have my daughters and family living in Invercargill. Decisions this council makes will impact our community and my family. My experience will help deliver those decisions with integrity and careful consideration.
