

Invercargill City Council

Electing 12 City Councillors

David POTTINGER

My principal place of residence is in the Invercargill City Council area.

I am standing for the Invercargill City Council because I believe I have the skills, knowledge and experience necessary to make the decisions the city needs in the next three years.

If voters are happy with the way things are then they shouldn't vote for me. I am looking to improve things especially for those rate payers struggling at the present time.

I see Council as a team of thirteen players and, as such, they need to work together to make the city successful. Even before the elections we are seeing signs of division and group think. I'm a team player and have seen the benefits of working together as a group.

The current council has already seen the costs of disfunctional performance and the thousands of dollars spent could have been better used somewhere else.

I listen, I think and I make things happen.

David Pottinger.
