

# Invercargill City Council

## Electing 12 City Councillors

---

### **Malcolm LOAN**

My principal place of residence is in the Invercargill City Council area.

I am pleased to put my name forward as a candidate for Invercargill City Council.

The Council has an important role in providing infrastructure and amenities which make

Invercargill a great place to live. There are some great recreational areas, and access to the natural environment within the city, including Sandy Point, the coastlines, and the many bush reserves surrounding the city which are deserving of protection from human sourced impacts.

For many years I was Invercargill's Drainage and Solid Waste Manager, and have been involved in many development projects. I understand the dilemma faced by Council in striving to provide high quality service delivery and environmental outcomes, while keeping costs affordable to ratepayers.

I believe I have the background and skills to bring value to the Council table in debating future directions for ratepayers, particularly in regard to proposed changes in Local Government, Resource Management and Three Waters Legislation.
