

Invercargill Licensing Trust

Electing 6 Board Members

Sean BELLEW

My principal place of residence is in the Invercargill Licensing Trust area.

Our city is going through a period of change, where the traditional work, live and play has been transformed to vibrant Invercargill. And, a more vibrant time could not have been had when trying to navigate through a pandemic. Added to that, the colossal weight of a 50-plus million dollar hotel build, with workers dropping like flies through the process and let's not mention lack of supplies.

Being part of the leadership group made me feel alive, assuring that the constitutional and institutional knowledge gleaned over the 12 years as a sitting board member kicked in.

I offer a pragmatic approach to the business with the ILT parent. I offer commercial grounding and through the ILT foundation a warm philosophical approach, the very same approach that secured living wage for our longer serving workers. Essentially my service may be long but the desire is still strong Vote Bellew For Value.
