

# Invercargill City Council

## Electing 12 City Councillors

---

### **Allan ARNOLD**

LETS GO Invercargill

My principal place of residence is in the Invercargill City Council area.

Allan Arnold brings 40 years experience in both business and community roles to the table as an Invercargill City councillor, where he has already served two terms.

I am asking for your support for re-election because I demonstrate common sense, logic and a principled approach, along with a positive attitude.

As a life-long resident and lover of Invercargill, my life experience helps me bring a balanced view to decision-making, and as my record shows, I'm not afraid to stand up for what I believe in.

I want to see Invercargill with a council that is an enabler, that assists private enterprises to establish new businesses, helps create new employment opportunities, and most importantly listens to every member of the community.

It has been exciting seeing a new city built where the old city once stood. This centralisation will contribute to an ongoing revitalisation that will endure.
