

# Invercargill City Council

## Electing 12 City Councillors

---

### **Kerry HAPUKU**

LETS GO Invercargill

My principal place of residence is in the Invercargill City Council area.

I am a born and bred Southlander. I grew up on a sheep farm at Edendale and moved to Invercargill when I was 16. I have children and grandchildren living in Invercargill and want to

help make this city a place they can be proud of.

I have worked at Tiwai for the past 28 years including roles in Procurement, Maintenance Systems and I am currently a Planner. I have a comprehensive knowledge of systems and processes. I have also been a Company Director.

If elected I will use my skills and experience to focus on the best interests of the ratepayers. I would like to see more transparency and accountability from the Council. I care about our future.

I will question the status quo. I will bring honesty and integrity to the table with a commonsense no-nonsense approach.
