

Invercargill City Council

Electing 12 City Councillors

Rebecca AMUNDSEN

Leading Change - Spirit of Service

My principal place of residence is in the Invercargill City Council area.

As a councillor I have a proven record of working hard and getting things done. I stand up for what is right and make tough calls, always staying true to my values. I take a balanced approach to decision-making and work as part of the team. I have strong connections to the community and advocate for genuine community-led decision-making. My biggest strength is my big picture, strategic approach and natural leadership. I want to be on council to continue to contribute positively and tangibly to my community.

This is an exciting time for Invercargill and Bluff. There are many opportunities in front of us but I am under no illusion of the challenges we also face. These opportunities and challenges require my kind of experience and a genuine focus on what's best for the city. For someone who has always been a leader on council - Vote Rebecca Amundsen.
