

# Invercargill City Council

## Electing the Mayor

---

---

### **Toni BIDDLE**

Independent

My principal place of residence is in the Invercargill City Council area.

As an independent standing for mayor only, I offer energetic leadership. As previous Deputy Mayor, I am returning with conviction. My commitment is to build a team that debate issues, not personalities, decide, and then delivers. With fifteen years of working in government and local government, I have built the relationships to advocate for our city. To be the best place to raise families, care for the elderly, and teach our children we need a strong economy. Supporting business, job creation, and investment in Invercargill is a priority. We should be proud of our diversity, heritage, and culture, not fighting for it. Our museum must be built earlier than projected so our children build a collective identity, common heritage, and belonging. I have been connected to our community since I was a child through netball, swimming, and singing. I was born and raised here and intend to stay.
