

# Invercargill City Council

## Electing 12 City Councillors

---

### **Terry KING**

Ratepayer Advocate

My principal place of residence is in the Invercargill City Council area.

Being a team player, I oppose a toxic culture of self-interest and disunity.

I am approachable, and listen to and respect people.

With a background in financial services, have been privileged to serve my community as a Justice of the Peace for many years, nine years an Invercargill City Councillor including chairperson of major committees.

Former national president of Grey Power New Zealand I support the welfare and wellbeing of the older person and people with disabilities.

My work with youth has been in sporting, social and justice organisations.

Previously a member of the Museum Board I support the urgent rebuild of a facility for all Southlanders. I oppose the proposed ownership structure of Three Waters.

With future change to local government I have the leadership skills to make a positive contribution.

A recent member of the Southern District Health Board with good Governance experience would appreciate your support.
