

Invercargill City Council

Electing 12 City Councillors

Nigel Dean SKELT

My principal place of residence is in the Invercargill City Council area.

Invercargill has always been home, and throughout my years here, my great passion around our community has only grown alongside our vibrant city, though in particular my drive lies with our ratepayers and what the future holds.

Our young people are our future and are our lifeboat, and we must continue to provide job opportunities and create events and a lifestyle that will encourage them to be our voice and our positive marketing engine of the future.

Our ratepayers are our biggest and most influential resource. As a first term councillor, I have listened, been proactive, and been a trustworthy advocate regarding Anderson House, The Museum rebuild, the development of the inner-city projects, and the establishment of CCTV throughout the city.

I will continue to bring business-acumen, courage, and teamwork to the council table and will remain loyal to our city.
