

Invercargill City Council

Electing 12 City Councillors

Kari GRABER

My principal place of residence is in the Invercargill City Council area.

I would like to join the Council to deliver on the projects the community want and need, opening our beloved museum, finishing the improvements to our Inner City, sorting Three Waters and supporting businesses to thrive, ensuring that the rates paid are used effectively.

Invercargill and Southland is a special place and we need to make sure that the City is a place where our residents prosper. A place for families, young professionals, seniors and those new to New Zealand.

The next three years are going to be challenging, with three waters, and an economic crisis looming. The City needs people who get things done. We need to be able to work together to achieve good things for Invercargill. I believe I have the commitment and experience to achieve the results the City needs to the best city in the world.
