

# Invercargill City Council

## Electing 12 City Councillors

---

### **Graham LEWIS**

My principal place of residence is in the Invercargill City Council area.

It is a pleasure to have been heavily involved in the community including, Hospice Southland board, (honorary ongoing involvement since before Hospice's opening), Bluff 2024, South

Alive (previous committee member), Southland Regional Heritage trust, Invercargill Public Art Gallery committee, City Centre Heritage steering group and the Regional Skills Leadership group.

Close contact with many sectors of the population through my pharmacy profession, has helped me relate to the financial and social demands of the city.

Membership of the Institute of Directors has been helpful with Governance needed for Local Government.

During the past term I have a high rate of attendance at Council meetings, including most workshops.

I currently chair both the Creative Community and Community Wellbeing Committees, demanding but productive for Invercargill. Being available to discuss issues of concern with residents has been rewarding and hopefully with your vote this will continue.

Respectfully,  
Graham Lewis
