

# Invercargill City Council

## Electing 12 City Councillors

---

### **Dene ALLEN**

My principal place of residence is in the Invercargill City Council area.

I'm a passionate local with years of service to the community and regularly provide my musical skills to local charitable organisations.

Through my career I've been fortunate to be afforded opportunities to connect across all sectors of our community, this has given me a broad understanding the challenges our city faces and has driven my passion to roll up my sleeves and support Invercargill's future.

Raising my family here, I'm enthusiastic to see our potential realised with a collaborative and connected council.

Invercargill has potential; we must attract talent and promote our city! I believe decisive energetic leadership will see our city prosper and live up to its potential.

I will connect with our community and be relatable and a genuine voice for the people of Invercargill.

I am outcome focused and would like to see our council be driven to positive outcomes as effectively as fiscally responsible as possible.
