Water safety tips for

SMART SWIMMERS!

Wear bright swimwear!

Bright colours help you stay visible in the water, so pick your brightest swimwear!

Don't run near the pool

The ground can be slippery - walk carefully when you're near water.

Take breaks to rest

Swimming is fun, but it can make you tired. Remember to take breaks and refuel at Liquid Café when you need to.

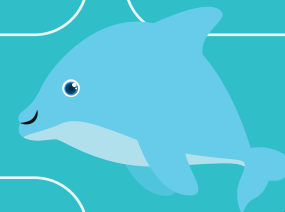

Wear a life jacket in deep water or on boats

Life jackets keep you safe if you're in deep water or on a boat. Always wear one when needed.

Listen to lifeguards

Our lifeguards are there to help - always follow their instructions to stay safe.

DID YOU KNOW?

Dolphins swim together to stay safe - why not bring a buddy along for your next swim?
